

## RISKS OF ROAD DRIVE MEN OUT

Brotherhood Official Says 15,000 Men Sought New Jobs in Two Years.

## MORE WORK, BUT NOT PAY

Witnesses Before Arbitration Board Testify as to Attitude of Insurance Companies.

New York, March 12.—Fifteen thousand men have resigned from the Brotherhood of Locomotive Firemen and Engineers during the last two years, owing to their quitting the employ of the railroads and seeking other occupations, was part of the testimony given today by Albert H. Hawley, of Peoria, Ill., general secretary and treasurer of the brotherhood, when the Federal arbitration board resumed the hearing on the dispute between the railroads and the firemen and engineers. It was testified that the average pay of workmen in other trades in this city would be \$5.00 for sixteen hours continuous work, which many firemen are compelled to put in.

Daniel W. Watt, of Peoria, Ill., testified that twenty years of exemplary service as fireman and engineer on a Western railroad did not entitle him to a letter of recommendation when he left the company's employ. Watt said that he was at present engaged as a clerk in the office of the brotherhood and that his wages were now higher than any which he had received while in the employ of the railroad.

**Work Increased in Twenty Years.**  
In reply to a question put by Judge W. L. Chambers, chairman and neutral member of the board, the witness said the work had been made twice as hard for firemen during the last twenty years, owing to the increase in the weight of the locomotives and the heavier hauls. Further questioning brought out that the increase in pay during the same period had been only 10 per cent. The witness affirmed that he was willing to go on oath as to these facts.

Mr. Hawley testified that there had been 4,000 deaths among members of the brotherhood between the years of 1893 and 1912, and 2,000 accidents in the same time, and that the fraternal organization had paid benefits upon all of these cases. All of the deaths and accidents occurred to men while on duty.

Dr. Walter B. Cory, medical adviser of the brotherhood, testified that the nature of the firemen's work rendered him subject to diseases of the heart, kidneys, liver, and nerve system. Color blindness was often induced by the excessive heat and light. He introduced a list taken from numerous insurance companies, showing the companies regarded the firemen as an extra hazard, and that many companies would not insure a freight fireman.

**Risk on Firemen Greater.**  
Miles Iowson, an expert actuary of this city, testified that the insurance companies lean toward the belief that the risk on firemen is greater than in the case of engineers.

Chairman Lee, of the conference committee of the railroads, announced at the opening of the session that the Toledo, St. Louis and Western had signified a desire to withdraw from the arbitration proceedings, because it would not be able to pay an increase to the firemen, and preferred to deal with its men alone. Judge Chambers said the arbitration board could not recognize the right of any road over a party to the agreement to withdraw.

Statistics compiled from the Interstate Commerce Commission showed that in less than a year the Eastern railroads had violated the maximum-hour law 2,382 times. Some of these violations, it was admitted, had been due to washouts and wrecks and were unavoidable.

## SECRETARY WILSON TALKS ON UNIONISM

New Head of Department of Labor Speaks to Men's Club.

## RELATION OF SCHOOL SYSTEMS

The great institutions which have grown out of the efforts of trade unions was the theme of an address made last night by William H. Wilson, Secretary of the new Department of Labor, at the regular monthly meeting of the Men's Club of St. Mark's parish, held in the parish hall, corner of Third and A streets Southeast.

Secretary Wilson declared that the present magnificent school system of this country was the fruits of the efforts of trade unions. "The trade unions," said Secretary Wilson, "more than a century ago realized that if the laboring man could be educated so that he could intelligently present his grievances, it was out of this desire to prepare himself to reason with his employers that the school system of this country was conceived."

Secretary Wilson claimed that most of the reform legislation affecting factories and mines had been the result of the efforts of the trade unions to better the conditions of the laboring class. Sanitation in mines and factories, he said, was unheard of until pressure was brought to bear upon the subject by trade unions.

The functions of the new Department of Labor were touched upon by Secretary Wilson. He stated that the new department was the outgrowth of the movement to bring the employer and employee on a common footing. "The department of Labor," said Secretary Wilson, "will be a sort of a conciliatory bureau, so to speak, where the employer and the employee will gather around the council table and thrash things out. The Secretary is empowered to do all he can to peacefully settle all disputes arising between capital and labor."

President Lee presided at the meeting. At the conclusion of Secretary Wilson's address he extended him a vote of thanks on behalf of the club. The musical part of the program was omitted, owing to holding the meeting in the parish hall during Lent.

## MARSHALL GETS MEDAL

Vice President Is Presented with Inaugural Remembrance.

Vice President Marshall was presented yesterday with a gold medal in the form and design of the official badge of the inaugural committee.

The souvenir was appropriately engraved, and the presentation was made upon behalf of the committee by William Corcoran, Esq., its chairman. Vice President Marshall made a series of remarks, expressing his thanks and saying that the occasion was the happiest public function which he ever participated. The presentation of such a medal is customary when the inaugural committee has a surplus of funds.

## DEMOCRATS TO HOLD PRIMARY IN AUGUST

Virginia Municipal and State Officers Must Face Voters to Secure Re-election.

## OTHER NEWS NOTES OF INTEREST

Alexandria, Va., March 12.—Plans for a primary to be held in the early summer for the purpose of nominating municipal and State officers and also the plans for the State primary to be held early next August will be discussed at a meeting of the city Democratic committee, which will be held next week.

Charles Bendheim, chairman of the city committee, announced to-day that he would issue a call for a meeting of the committee for one night next week for the foregoing purpose.

Under the new primary law it is necessary that candidates seeking the various offices file a declaration of their intention with the clerk of the court sixty days prior to the primary. This being the law the committee will hardly fix the date of the primary before the latter part of May or the 1st of June, it is thought.

## Window Smashing Costly.

Smashing windows for amusement and doing damage to the extent of \$150 was the manner in which Michael Sullivan and Hamilton Sibbald, soldiers from Fort Washington, Md., ended up a "drunk" at 2 o'clock this morning. The windows they smashed included the handsome plate glass display window of the store of Sanders & Stayman, 411-413 King Street, valued by John M. Reed, local manager, at \$175, and the window of the glass show case in front of the store of R. L. Carney & Co., 253 King Street, valued at \$100.

In court this morning they were fined \$5 each, with the alternative of spending ninety days each in the city jail. The window of Sanders & Stayman was broken with a brick which Sullivan admitted doing this job, and his only excuse was that he was drunk. The window of the show case of Carney & Co. presumably was broken by Sibbald, although he declared he had no statement to make. An empty whisky flask was used in breaking it. The loss on both windows is covered by insurance.

The Mutual Ice Company, of this city, has just completed the work of erecting an ice manufacturing plant at the Potomac railroad yards, Alexandria County. Operations will have begun at the plant Saturday morning. This plant has a capacity of manufacturing fifty tons ice daily.

All of the ice manufactured at the plant will be used in iceing cars of Armour and Company, going both north and south.

The ice for these cars was formerly conveyed by cars from the plant of the local concern to the yards, and transferred to the cars.

The freight over which coal will pass to the city gas works has practically been completed and will be used for the first time Saturday.

The construction of the trestle will obviate the necessity of hauling the coal for the city gas works a considerable distance, in order to get it to the city. The cost of the trestle will be about \$4200. One half of the cost will be paid by the Southern Railway Company.

It is estimated that the city will save sufficient within three years to pay its share of the cost of the construction of the trestle.

In the Circuit Court for this city to-day, in the case of Frederick P. Russell against the Columbia Portland Cement Corporation, a decree was entered confirming report of Norvell L. Henley, special commissioner, and naming him to receive the sum of \$10,000, which he is to pay to the Southern Railway Company.

In the same court a final decree for divorce, on the ground of desertion, was given in the case of F. M. Beach against Charles D. Beach. She was given the custody of her daughter.

Eugene E. Fisher, arrested some time ago in Fredericksburg, Va., on a charge of the non-support of his wife, and who was released on furnishing bond in the sum of \$2,000, today appeared before the United States Commissioner R. P. W. Garnett and renewed his bond for sixty days until re-arrest papers have been made in Washington. Fisher will be tried, it is stated, in Washington.

Miss Hilda Adelle Hayden, daughter of Mr. and Mrs. George H. Hayden, and Harry R. Gray, the sister of Hon. H. R. Gray, of Loudoun County, Va., were married to-night at the parsonage of Trinity M. E. Church. The ceremony was performed by Rev. G. A. Lottrell, pastor.

Thomas Burnett, of Acetank, Fairfax County, reports to the police that while in this city to-day he was jostled in a shop and stole from him.

The St. Mary's Sunday school baseball club is arranging for an entertainment which will be given April 2 next at the Young Men's Solidity Lyceum hall. Proceeds will be for the athletic fund.

William Helms and wife, Margaret, have purchased from Phoebe A. Mankin the store and dwelling at the northwest corner of Lee and Wolfe streets.

The March term of the Circuit Court for this city was closed by Judge Judge J. B. T. Thornton came here from Manassas to sign a number of papers.

The members of the Columbia Fire Engine Company are arranging for an outdoor sport Monday night at their home.

J. A. Kelly, of Washington, has accepted a position with the Mount Vernon estates, which he formerly held.

## CONVENTION SITES SHOWN.

President Callahan Escorts Visiting Representatives Over City.

Sites in the District suitable for the convention of the American Electric Railway Association and the American Manufacturers' Association were shown to a committee representing those organizations yesterday by a local committee.

President D. J. Callahan and Secretary Thomas Grant of the Washington Chamber of Commerce; John Dolph, chairman of the Chamber's conventions committee, and Clarence P. King, president of the National Electric Railway and Electric Company, discussed the conventions with the visitors, who will report to the committee on the feasibility of holding the conventions here.

Charles L. Henry, James McGraw, E. H. Baker, William H. Beall, Jr., W. L. Conwell, H. G. McConaughy, and H. C. Doncker, composed the committee of visitors.

To Cure a Headache.

You must first remove the cause. Most headaches are caused by a disordered stomach. Hoff's Lemon Syrup will put your stomach in the pink of condition and cure your headache in a few minutes.

## GOVERNMENT PROVOKES SENATE FLURRY

Continued from Page One.

The election of officers then proceeded until the name of Loeffler was reached, and Senator Loeppke demanded the separate vote and a roll call on the motion to substitute the name of Dean Sumner, of Iowa, an employee of the Senate and a Republican, for that of Loeffler. Only five votes were cast for Sumner, and forty-seven were given to Loeffler.

At the conclusion of the voting, Senator Gore moved that the Committee on Privileges and Elections investigate the charges. Senator Gallinger moved to table Senator Gore's motion, but the motion was defeated by a vote of 25 to 15. Many Senators who had strongly defended Loeffler, voted for the investigation, on the ground that it was due the Senate employ that the investigation be made to the end that he might be exonerated.

**Senators Quit Men.**  
Following the flurry, a hurried call was issued for a meeting of the Committee on Privileges and Elections this morning to investigate the charges against Loeffler for any such incident ever occurring. The floor was the scene of excited groups, discussing the affair. Both Loeffler and the Senate page, Harrison, who was responsible for the trouble, were brought to the floor and quizzed by Senators. Loeffler declined to discuss the matter with newspaper men. His friends say that he has no recollection of any such incident ever having occurred. He sat yesterday at his accustomed post on the Republican side while the charge was being made against him and while Senators were defending his reputation.

The Senate elected officers yesterday. Charles G. Bennett, of Brooklyn, who has been Secretary of the Senate continuously for about fifteen years, was displaced by James M. Baker of South Carolina, who has been Librarian of the Senate for a number of years.

Charles Phillips, of St. Louis, was chosen Sergeant-at-Arms to succeed E. Livingston Cornelius, of Baltimore, who has been an employee of the Senate for many years and succeeded to the office of Sergeant-at-Arms on the death of Col. Daniel N. Randall. Thomas W. Keller, who for many years has been Acting Assistant Doorkeeper on the minority side, was chosen Doorkeeper. Keller's home is in West Virginia. He has been identified with the Senate for many years, having come to Washington originally with the late Senator Robert M. La Follette. Carl Loeffler was elected Acting Assistant Doorkeeper to serve on the Republican or minority side.

The election for the next part was formal. James M. Baker, the new Secretary of the Senate, was escorted to the desk by Henry M. Rose, Assistant Secretary of the Senate, and the oath of office was administered to him by Vice President Marshall.

## PRESIDENT WILSON REPRIEVES MURDERER

Deserter, Who Killed Two Indians, to Be Used as Witness Against Accomplice.

President Wilson yesterday for the first time exercised his prerogative of granting clemency to a convicted man. He extended for sixty days the life of John B. Goodwin, a deserter from the army, who was convicted of murder.

The reprieve was granted in order that Goodwin might be the principal witness in the prosecution of his companion, William Stewart, in the killing of Fred Kibbe and Alfred Hillman on the White Mountain Indian reservation, in Arizona, in the summer of 1911.

Goodwin was sentenced to be hanged this morning in the Gila County (Ariz.) jail. Goodwin's case is a most complicated one, owing to a question of jurisdiction. He was tried and convicted in the United States territorial court for murder in the first degree without jurisdiction, in the State prison February 6, 1912. The Governor declined to execute the man on the ground that since Arizona had been admitted to the Union, the State authorities without jurisdiction, the crime being committed on a Government reservation. The case was finally carried to the United States Circuit Court, where the original verdict was affirmed December 18, 1912, and March 11 was designated as the date of execution.

Stewart, who turned State's evidence, was sentenced to life imprisonment on charges of murdering one of the men. The authorities of the Department of Justice, upon reviewing the case, held the difference in sentences to be unfair. Since Stewart was the principal witness in the conviction of Goodwin, it is expected that Goodwin's testimony will assist in convicting Stewart and bringing about a degree of justice.

The two men established a camp out in the mountains on the Indian reservation and invited Kibbe and Hillman to join them as guests. Robbery was the motive of the double murder.

**Baltimore Women to March.**  
Baltimore, March 12.—With fifteen bands blaring away, several scores gorgeously decorated floats, and a host of marching bands, about 10,000 women of Baltimore will march through the main streets of this city on the afternoon of Saturday, May 31.

## Who will you appoint as executor or administrator of your estate?

The carrying out of your wishes depends to a great extent upon whom you appoint as your executor. Will it be an individual or a company organized for that purpose?

In the case of an individual, there is always the uncertainty that he will survive you for a sufficient time to carry out your instructions, that he will prove competent in his duties or faithful to his trust.

The American Security and Trust Company is empowered under its charter to act as executor, administrator, or trustee of estates.

Because of its permanence, facilities, methods, experience, and financial strength it offers a more efficient and economical service than any individual.

The Company can often secure a better income from conservative investments than an individual could, and it never leaves surplus funds idle, reinvesting them at once.

The American Security and Trust Company, when named as executor, draws will and keeps them free of charge.

We will be glad to confer with you and explain more fully the methods of our trust department.

## Perfect Hearing in the HOLLOW OF YOUR HAND

Are you deaf or hard of hearing? Hear the great news! At last science has conquered your affliction. For the first time perfect hearing is within your reach. No matter how deaf you are, the wonderful Improved Mearns Ear Phone enables you to hear distinctly. You can hear clearly any sound, any time, anywhere. See, hear it, learn about it; test it, try it, the remarkable

## NEW 4-TONE MEARS Ear Phone

Just out! The latest patented Perfected hearing instrument—the new "Special" model Mearns. It is adjustable to meet every condition and requirement of the deaf. The remarkable instrument has four different sound strengths, instantly changed by a touch of the finger. You regulate the instrument by a tiny switch to meet any condition of your ear or to hear any sound—low pitched conversation near you, or sounds from any distance. The whole range of hearing of the healthy, natural ear is covered by this new 4-Tone "Special" model Mearns Ear Phone. Send for our free book today.

Already over 14,000 single tone Mearns Ear Phones have been sold. Hundreds of famous men and women use it and praise it. Ask us for copies of their enthusiastic letters.

## SPECIAL OFFER INTRODUCTORY

To advertise and quickly introduce this greatest of all inventions for the deaf, we are going to sell the first lot of these new Four-Tone instruments direct from our laboratory to users. This offer applies to only a limited number. Write today. Send the coupon below and you can save more than one-half the retail price. A few dollars, payable on easy terms if desired, secure you complete relief from your affliction. We will mail the special introductory price only in direct personal letters. So write today. Do it now and you can save both the wholesaler's and retailer's profit.

**Would You Like to Be Freed From Slavery to Glasses? If So, Read the Interesting Book Now Obtainable Free.**

It is predicted that within a few years eyeglasses and spectacles will be so scarce that there will be no demand for them except as curiosities, and we may see the day when the wearing of glasses is a thing of the past. This is consistent with the progress of science in this age of wonders, of flying machines, wireless telegraphy, telephones, phonographs, etc., but especially in the marvelous advancement of knowledge in saving lives and health—including that of the all-important organs of sight!

**Eyeglasses Are Merely Eye Crutches.**  
A book has been written by Dr. Coriah, an eminent New York physician, on eyestrain and other eye disorders which cause so much trouble to those afflicted, including the need of wearing eyeglasses or spectacles.

This treatise explains a simple, safe, self-treatment method whereby one who wears eyeglasses, or fears the need of wearing them, may gradually strengthen the nerves, muscles and membranes of the eyes until they are in so much better condition that "optician's windows" are unnecessary. Any one who reads the book soon realizes that Dr. Coriah has given the world what it has long desired—a system of eye saving that is absolutely devoid of belladonna, opium, atropine or other harmful drugs, commonly used in eye remedies, and which depend chiefly upon the finer principles of nature.

Dr. Coriah has written enthusiastically, yet carefully. He comes forward with the edict that eyeglasses must go. His slogan is

**"Throw Away Your Glasses!"**  
The Doctor says the ancients never disguised their facial beauty with

goggles, but they employed certain natural methods which have lately been brought to light, which Dr. Coriah has improved upon and added to, with his own scientific knowledge. This book is not written in technical language, even a child can understand it. This brochure is sent free.

**"How to Save the Eyes."**  
An edition has been printed which will be given away—one copy absolutely free to every person who asks for it. There will not be a cent to pay. It is only necessary to write a post card will do to Okola Laboratory, Dept. 231F, Rochester, N. Y., and the book will come to you promptly, in plain wrapper gratis, postpaid.

**Health Damaged by Ailing Eyes.**  
Weak or ailing eyes do not hold their disorders within themselves, but are often allied with other serious troubles, such as headaches, nervousness, rheumatism, sleeplessness, morbid cravings, fear of approaching calamity, inability to concentrate thoughts, irritability, dependency and a long train of other afflictions which could be eliminated if the eyes were brought to a normal condition, so that glasses need not be used. The book tells about these disorders and how to overcome them.

**Get rid of your glasses, adopt the simple method explained in the book, and you may soon become the possessor of beautiful, expressive, soulful, magnetic eyes, such as are admired by all. Millions are to-day admiring glasses who could soon discard them if they adopted the method brought forth by Dr. Coriah. A person with natural perfect eyesight, free from disfiguring spectacles, has the best winning chance in life.**

**Valuable Book Is Free to You.**  
"Worth its weight in gold," is one of the expressions often used in praising Dr. Coriah's book. It is interesting to men and women of all ages. This treatise and the method described, as well as parts of our
